

Should

It is a good thing to do or the right thing to do. We use should to give advice or to give an opinion. We use should when we expect something to happen. You can use ought to instead of should.

Lo usamos cuando es lo correcto hacer algo o cuando es Bueno hacer algo. Lo usamos para dar algún consejo o para dar alguna opinión. Lo usamos para decir que esperamos que algo suceda. *Ought to* es el modo formal para decir lo mismo.

Chris is driving too fast; he should not pass the speed limit.

The government should crack down on criminals who violate young women and adolescents.

Do you think I should invest in this relatively new business?

Exercises

The economy is not looking up. I think the government _____ more jobs. (create)

Politicians talk too much. They _____ with incentives to free market and competition. (come up)

His mother died last weekend. I think I _____ him and offer him my prayers. (call)
